JMohler@BixbyOK.gov

What is a Comprehensive Plan?

A Comprehensive Plan is a planning document used by the City of Bixby to guide land use and resource management decisions. This Comprehensive Plan will guide all aspects for the city such as growth, redevelopment, economic development, city services, parks and open space, health and safety, public facilities and more.

Why Does It Matter?

Bixby residents have an incredible opportunity to impact the future of our city. By attending, take advantage of this opportunity to share your thoughts, express your goals and ideas, and provide feedback to help Bixby reach its full potential.

Get Involved!

The City will be holding the first community workshop to gather input from Bixby citizens regarding this great place you call home. By attending this workshop you can learn more about the process, share your ideas and help shape Bixby's future goals as we look to grow together over the coming decade.
